### **Q** What makes your practice unique?

**A** We prioritize overall health through a patient-centered, comprehensive approach that preserves natural tooth structure and minimizes invasive procedures. My associate since 2022, Dr. Steven Hoffer, and I are committed to delivering smiles that are not only beautiful, but also healthy. Recognizing the mouth as a gateway to overall health, we consider the bigger picture, addressing underlying issues to promote long-term well-being.

Using the most up-to-date technology, we offer a wide range of services, including implants, veneers, sleep appliances, periodontics, endodontics, orthodontics, white fillings, crowns and bridges, to ensure patients receive the best personalized treatments tailored to their needs. I deeply value the trust patients place in me and am incredibly proud of the community practice I've built over 30 years, treating multiple generations of the same families.
